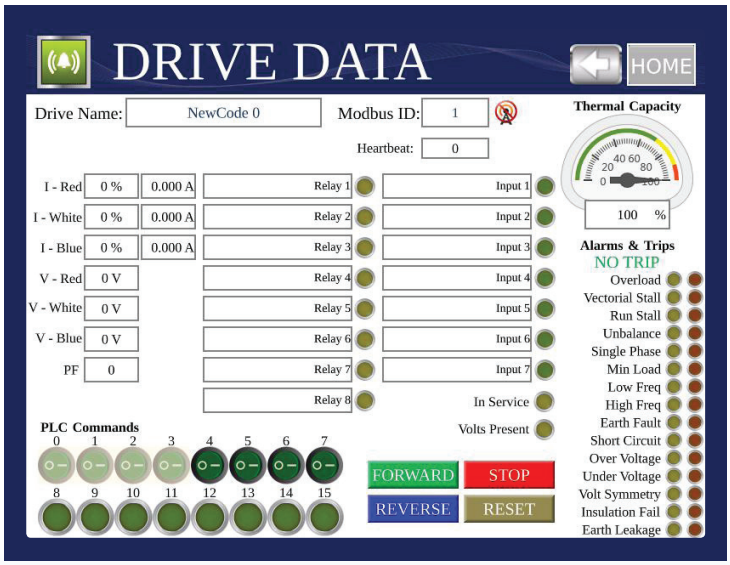
32 Unit HMI Solution

The Solution

The 32 Unit HMI offers an exceptional user friendly interface to up to 32 NewCode Relays.

The system integrator or operator will have access to the NewCode actual and parameter data without the use of a laptop or PC.



The Result

- Control Motor Function
- Standard Amp Meter
- Easy Trip Navigation
- Password Protected for Different User Levels
- Fully Customisable
- Automation Capabilities
- Modbus, Profibus & Ethernet

A South African Company to be Proud of
